Piute County is one of the smallest counties in Utah. It has the highest proportion of agricultural workers of any county in the state. And, with a median age of 39 years, Piute County has, by far, the oldest population in Utah. Thanks primarily to the public school system, government contributes the most nonfarm jobs in the county. Keep in mind that because of its small size, small numeric changes can make large percentage changes.

p = preliminary

Income and Wages
